This top-selling bull of the 2003 Spring Bull Sale at Anderson Circle Farm in Kentucky records the 23rd highest non-parent UREA EPD in the Fall 2003 National Angus Evaluation and his flush brother who was the \$20,000 top-selling bull of the 2002 Anderson Circle Farm Sale records the 16th highest non-parent UREA EPD. Produced by the cow with the Number 1 UREA EPD among active dams with progeny evaluated by ultrasound, Ambush 1128 is a maternal brother to a long list of top-sellers that include the \$25,500 Prime Design, all-time top-seller at Anderson Circle Farm who topped the 2002 ACF Spring Bull Sale. Maternal sisters to Ambush 1128 are headlined by the \$62,000 half-interest cow of the record-setting 2003 ACF Fall Female Sale where another maternal sister sold for \$55,000, the \$60,000 top-selling female of the 2002 ACF Fall Female Sale and the \$30,000 top-selling fall yearling of the 2001 ACF Fall Female Sale who records the 16th highest UREA EPD among non-parent females. An embryo flush from the dam of Ambush 1128 sold for \$85,000 in the fall of 2002 and the popularity of her descendants grows with each new sire summary. Ranking among the top 1% of non-parent Angus bulls for both UREA EPD and U%RP EPD with an IMF EPD among the top 3% of the population, the interim EPD values for Ambush 1128 project him to have a BEPD below breed average.

DAVIS YR BLACKBIRD 558H - The dam of Ambush 1128, she records the Number 1 UREA EPD among active Angus dams with progeny evaluated by ultrasound and her progeny include three consecutive top-selling bulls at Anderson Circle Farm where daughters have sold for \$124,000 and \$55,000 in 2003 and \$60,000 in 2002.

ACF BLACKBIRD 0250 - This maternal sister to Ambush 1128 sold half interest for \$62,000 in the 2003 sale at Anderson Circle Farm where another flush sister sold for \$55,000 with a third sister selling for \$60,000 there in 2002.
