2 878 offers the superior strength of 2536 with a minimum of birth weight and brings superior muscle along for the ride. One of the top REA bulls in the Angus breed, 2 878 sires impressive cattle that are strong in their look, stouter than average, robust in their rib and muscle shape and possess a classy look. His first daughters in production are powerful females that display ample rib shape and very nice udders. The influence of 2536 is a great thing--2 878 brings it with good-look-ing, calving ease cattle that excel for true muscle.

For any breeder looking for a performance boost, high value and a gentle set of calves, 5050 needs to be on the list. One of the best in the breed for \$B, 5050 has more than enough data to call him a great breeding bull. Pedigree strength is real with 5050--he blends 036 and 706 into a big, sound-footed bull with extra length. His progeny compete at the top for gain, they're easy to work with and his daughters are standouts for good cow traits--they're good uddered, fertile females with longevity. Use 5050 for all the special things he delivers--high growth, high value, great daughters and a great disposition--you won't be disappointed.
